

IFOS GLOBAL MISSIONS

Collaborative actions

IFOS and SFORL have decided to combine their efforts to fulfill the objectives of IFOS constitution: to promote around the world education and global outreach missions taking into account all the diversity

- ✓ IFOS world courses
- ✓ Educational material
- ✓ Young IFOS ad hoc committee
- ✓ IFOS global outreach
- ✓ IFOS journal special Issues

The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to deep navy blue. These shapes are primarily located on the right side of the frame, creating a modern, dynamic feel.

1. **IFOS World Courses**

Goal

- Two courses organized each year dedicated to young physicians who have already graduated and will be the next leaders in their field of expertise
- Framework: Global courses on hearing rehabilitation “training the trainer”
- The aim is also to promote guidelines from agencies and scientific societies and the WHO resolutions and actions
- 5 grants of 1 000€ each are awarded for each course
- First course was organized in November 2018 in Lima and has gathered 345 participants from 24 countries
- Presentations are available on line

2. Educational Material

Goal

- Creation of a free online library to be accessible for ENT professionals all around the world
- Provide content from many countries in many different formats (PDF, videos, articles etc) and different languages (English, French, German, Spanish, Russian, Japanese etc)

Powerful search tool within the IFOS website that would allow any ENT doctor to access the largest database in the world

Founding Committee

Agricio CRESPO - Brazil
Thomas DEITMER – Germany
Johannes FAGAN – South Africa
Emmanuel LESCANNE - France
Jaime MARCO - Spain
David MOFFAT - England
Peter SHENG-PO HAO - China
George TAVARTKILADZE - Russia
Tatsuya YAMASOBA - Japan

We need your help!

3. Young IFOS ad hoc committee

What is YO-IFOS all about?

- It targets young ENT physicians, aged 30 to 45, enrolled in an academic career or ongoing education, across the world and ENT subspecialties.
- This group has the ambition to fulfill 4 missions:
 - Education: develop teaching materials and gather international guidelines / foster collaborative works such as meta-analyses and literature reviews.
 - Research: encourage networking and collaborative research programs
 - Congress participation: improve participation of young physicians in international meetings by helping to elaborate scientific programs, workshops, roundtables and eventually organizing specific sessions
 - Networking: promote international mobility of young physicians to encourage medical, research and humanitarian exchanges

4.

IFOS global outreach

An International advisory board

can receive through the needs and requests both from volunteers willing to help colleagues in a field of Otolaryngology-Head Neck surgery and from local teams willing to be helped

Do you need help for a mission ?

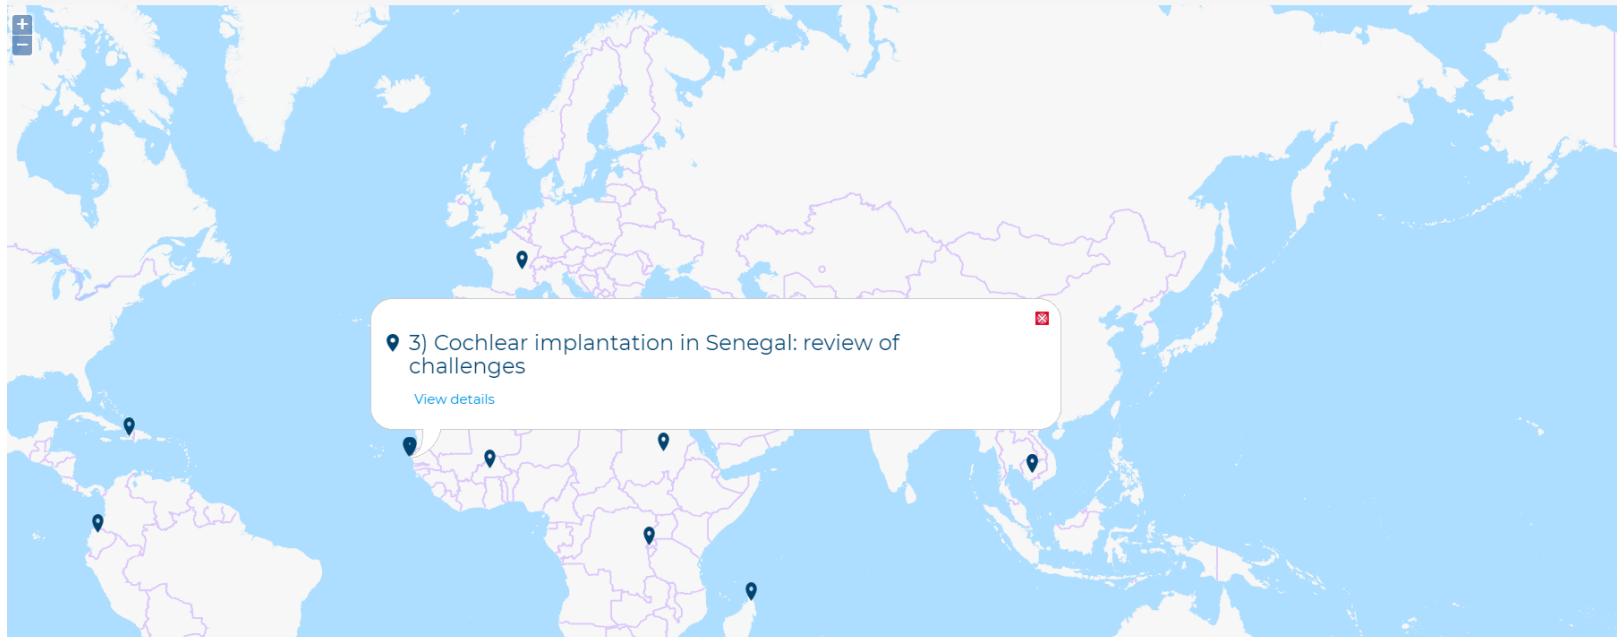

Do you want to help on a mission ?

OUTCOME & DATA COLLECTION

This interactive map allows you to view mission requests around the world (red markers). Place your mouse on the map and use the cursor to move on the map. It is possible to zoom.

You can always offer your help or ask for help by registering on the platform. When your demand will be validated by a competent committee, you could contacting people who need help or conversely with people who wish to offer their help.

The reports of the finalized missions are available and are symbolized by blue markers.

The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to deep navy blue. These shapes are primarily located on the right side of the frame, creating a modern, dynamic feel.

5. **IFOS journal special Issues**

European Annals

of ORL

@otolaryngology

Head and neck diseases

Official Journal of the French Society of Otorhinolaryngology, Head and Neck Surgery (SFORL) and International Association of Otorhinolaryngology (IARLHO)

- Original articles
- Reviews
- Technical notes
- Case reports
- What is your diagnosis ?
- Letters to the Editor
- Correspondence

Vol. 105 - n° 1 - April 2018

Over four years, 8 IFOS special issues will be published and available to all IFOS participants **at a special rate of 30 € per year**, including the access to the online journal and its archives.

The European Annals of ORL, edited by Elsevier, is one of the oldest otorhinolaryngology peer reviewed journals in Europe (Impact factor 2017: 1.108). Today six annual issues provide original clinical and research articles, epidemiological studies, new methodological clinical approaches in all areas of otology, laryngology, rhinology, head and neck surgery.

In 2018, the first issue has been edited by the **“IFOS Young Otolaryngologists committee”**.
